About Project

Our organization were established in 1992 to preserve and protect natural and cultural heritage. The Directorates' activity areas are public education and recreation. Daily activities of staff members are different. The volunteer will take care of the park environment. There are many simple works that volunteers are awaiting - to hoe and to rake soil, to remove weeds, to water plants, to cut off old branches or flowers, work on making new forest paths etc. the second area where volunteers can do a lot in dealing with visitors or with social network accounts of Regional parks. There is a possibility to help organize events (different technical activities – to prepare event areas, leaflets, information tables etc.), to help with guided tours in English, to help educators (assistance during Lithuanian educations, creation of new activities etc.)

Accommodation, Food and Other Supports

The volunteer will be hosted in flat together with other volunteers in Vilnius. Each volunteer will have their own room. A monthly bus card will be provided. Volunteers will receive food and pocket money every month. The volunteer will have an integration week organised by the coordinating organisation. During the volunteer service, volunteers will also have On-Arrival and Mid Term training organised by the National Agency.

Volunteer Profile

There are no specific requirements for the volunteers: generally, they must be self-motivated, willing to take on new challenges, and open to working with people of all backgrounds and cultures, dynamic, versatile, good mood, flexible, with self-initiative. Experienced in being in nature (scouting, hiking, few horticulture experiences) is an advantage.
